

BUILDING AND BLOCKS

This Toolbox will help you introduce many activities found in a Montessori classroom: hammering, paper punching, sorting, and size grading.

This guide outlines the activities included with your Toolbox. The videos, printables and other resources are available on our website. This specific Toolbox can be found at www.mbymom.com/ag

About This Toolbox

The cork board set is extremely versatile, with dozens of uses. Your child will have hours and hours of creative fun!

Hammering is a standard activity in the Montessori classroom, which can be combined with letters and printable numbers. Younger children can work on motor skills with the 2 different styles of pins.

Paper punching is also a standard Montessori activity. Using our wooden paper punch, your child will have fun punching out shapes. Each time seems like a new activity because we provide various designs. Not only is the paper punch a great preparation for writing, but it is one of the best ways to develop concentration.
