

LAND, WATER, AIR

This Toolbox includes many activities right from the classroom. Your child will work on transfer activities, geography, sorting, and more.

This guide outlines the activities included with your Toolbox. The videos and other resources are available on our website. This specific Toolbox can be found at www.mbymom.com/ah

About This Toolbox

The beautiful glass bottles and poster help show the difference between land, air, and water.

Older children can learn about land and water forms, cloud formations, and the water cycle. Your child will love being able to take their cloud formation cards outside and identifying the different clouds in the sky.

We also include a easy to use kit to make your own tactile land and water formation cards so that your child can have a sensory experience of the difference between the land and the water forms.

Our cork boat kit will allow your child to directly experience how a floating vehicle is moved by the wind.

Classification & Formations

- Sort Land, Water, Air Cards In Piles
- Match Land, Water, Air Cards To Images On the Poster
- Cloud Watching
- Land & Water Cards By Sight
- Land & Water Cards By Touch
- Explain Water Cycle

Montessori Puzzle & Transfer

- Observe a Turtle (At Pet Store)
- Assemble the Puzzle
- Naming Parts of the Turtle
- Trace the Puzzle
- Assemble Without Frame
- Labeling - Make A Booklet
- Transfer Bees - Four Levels Of Difficulty

Air Demonstrations

- Ribbon Air Demonstration
- Make Cork Boats
- Float Boats
- Balloon Rocket
- Read & Discuss Air Book
